03 PowerShell and admin

03 PowerShell and admin

Pro tips

• Read with Get- before you Set- or Grant-.

• Set-CsTeamsCallingPolicy changes the policy object. Grant-CsTeamsCallingPolicy assigns that policy to a user.

• New-CsOnlineVoiceRoute needs a number pattern, an online PSTN gateway, and a PSTN usage, or the route never matches.

Interview traps

• Running Set-CsTeamsCallingPolicy against a user principal name and thinking the user changed.

• Pasting parameters from a screenshot without checking Get-Help in the module installed on that machine.

Cheat sheet

Get- read

New- create

Set- change the object

Grant- assign to a user

Remove- delete

Voice route pattern + gateway + usage

Calling policy the object. Grant assigns it.

Facts in the long lessons were checked 14 October 2026. This sheet is a memory aid.
