Coexistence and CCaaS

Connect, Extend, and Unify are different media paths. CUCM, Webex, UCCE, Genesys, and Amazon Connect each need a named bridge, not a slogan.

- Connect, Extend, and Unify: The model decides the media path and the licenses. The sales adjective does not.
- Teams Phone extensibility: It is how a contact center uses the Teams Phone you already paid for, instead of a second PBX.
- CUCM and CUBE: Most Teams migrations in a Cisco estate are a dual-run, not a weekend miracle.
- Webex calling interop: A split estate needs a voice bridge. Chat federation is a different project.
- UCCE during a move: Contact-center agents and knowledge workers should not be forced through the same weekend.
- Genesys and Amazon Connect: Both appear in real estates. Neither is ‘a Microsoft feature’ you can assume.

CUCM

Cisco CUBE is one of the SBC families named in this lab’s certification lesson. A certified release can be the Direct Routing SBC between Unified CM and Teams.

The tenant still needs a verified domain on the SBC FQDN, and the user still needs Teams Phone. The studio translator does not open a live AXL session. Confirm the current certified release before you build.

Webex

Teams Phone and Webex Calling are separate clouds. This lab does not describe a feature that registers a Webex Calling user into a Teams tenant.

A number move is usually a carrier port, a certified SBC, or a meetings interop product. Confirm before relying.

UCCE

Unified CCE stays the ACD until you migrate it. Microsoft’s contact-center articles name Connect, Extend, and Unify. They do not name a UCCE connector in the notes this lab cites.

Voice into Teams is still Direct Routing or Operator Connect. The routing script stays on the contact-center product you bought. Confirm the vendor’s current model. Source: **https://learn.microsoft.com/en-us/microsoftteams/teams-contact-center**.

A note from the student behind this lab

This is an independent, free, learning-only student project. It respects every company and vendor. Trademarks belong to their owners. It is not affiliated or endorsed. Concerns go to **https://cyphermonkeylabs.com/#contact** and will be removed or corrected. Nothing is sold. Happy to volunteer for any organization.
